

# Case study

## By AmicusHorizon

**AmicusHorizon has been a member of Consortium Procurement since September 2015 when they re-joined the Consortium to utilise the Electronic Payments Services framework.**

“When we re-joined the Consortium I became aware of other frameworks on offer. We are always keen to take advantage of the economies of scale and minimise our procurement time. That’s why we’ve decided to call off the Legionella Treatment Services framework of the Consortium,” said Katie Williams, Procurement Manager at AmicusHorizon.

Both frameworks for Electronic Payments Services and Legionella Treatment Services are fully EU compliant, easy-to-access and provide flexible route to procuring services from suitably qualified and experienced companies.

“I found the documentation available through Consortium Procurement extensive and liked the notations throughout providing guidance. The processes of completing the mini tenders for both frameworks (EPS and Legionella) were straightforward and presented me with positive challenges. I was able to request some client specific amendments to reflect our needs. I found Consortium Procurement flexible and open to new ways of working,” commented Katie Williams.

### What to do next?

Email us at [solutions@consortiumprocurement.org.uk](mailto:solutions@consortiumprocurement.org.uk) or ring us on 0191 566 1000 to find out how we can help with your procurement priorities.

“I was impressed with the service provided by Consortium Procurement. They understood our business needs and took ownership of the procurement process which gave me time to focus on other projects. The procurement team is extremely knowledgeable and helpful and we’ll continue to work with them.”
