

Case study

By East Durham Homes (now part of County Durham Housing Group)

Jeff Scott, Adaptations, Asbestos and Special Projects Manager at East Durham Homes (CDHG) shares his positive experience of utilising the Consortium's framework for Asbestos Management Services and of working with the Consortium Procurement team.

Our framework for Asbestos Management Services includes 13 quality UKAS approved suppliers and covers:

- Lot 1: Asbestos surveying, sampling and air monitoring
- Lot 2: Non-licensed removal and remedial work
- Lot 3: Licensed removal and remedial work
- Lot 4: Training services
- Lot 5: Asbestos consultancy

Jeff Scott said: "We decided to call off from Lot 1 and Lot 2 and it is a pleasure to say that we are extremely happy with the quality of the service and the professional support we have received from Consortium Procurement and we are therefore currently working with them to reprocure both contracts when they expire.

"Consortium Procurement take away a lot of the hassle required to procure these kinds of services and they also facilitate the process from start to finish.

"We have found that the Consortium's greatest asset is their professional customer service tailored to suit Members' requirements and we have no hesitation in recommending their services."

What to do next?

Email us at solutions@consortiumprocurement.org.uk or ring us on 0191 566 1000 to find out how we can help with your procurement priorities.

"We are extremely happy with the quality of service and professional support we have received from Consortium Procurement."
